The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply		
 A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE <u>3</u> MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Claims 1-16 remain pending.

Election/Restrictions

2. Claims 1-10 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 22, 2006.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on October 31, 2007, was filed after the mailing date of the first action on the merits on September 7, 2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

4. The indicated allowability of claims 11, 12, and 14-16, is withdrawn in view of the new grounds of rejection below.

Response to Arguments

5. The rejection of claim 13 under 35 USC 112, set forth in the prior Office action, is withdrawn in view of the amendment filed June 7, 2007.

6. The objection to the drawings, set forth in the prior Office action, is withdrawn in view of the replacement drawings filed December 17, 2007.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

8. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

9. Claims 11-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's admitted state of the prior art in view of JP 05-107533 A.

A. Applicant's admitted state of the prior art, detailed in the instant specification at paragraphs 0017-0021 and Figs. 4A-4F, teaches all of the limitations of these claims with respect to a single dummy substrate.

B. Applicant's admitted prior art does not teach the presence of a second dummy substrate.

C. It is the Examiner's position that, as evidenced by, for example, JP 05-107533 A, cited in the IDS filed October 31, 2007, it is known in the art to provide

CTNF

two substrates that will be joined in opposing contact, with alignment marks. As such, it would have been obvious to one skilled in the art to provide two dummy substrates, one for each of the two substrates that will be joined in opposing contact, and to provide these with alignment marks according to the known prior art process disclosed by Applicant. One skilled in the art would have been motivated by the desire and expectation of successfully providing alignment marks on both dummy substrates simultaneously.

Conclusion

10. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
